iLearning Examination Guidance(For Candidate)

Precautions

1. **Examination environment requirements:**Prepare a separate room, no other personnel enter and exit the room during the exam.

2. **Camera monitoring and desktop monitoring:** A computer with a camera is required for the exam. The camera is used to take pictures during the exam. Use AI recognition technology to monitor candidates' exam behaviors and exam computer desktops. If any cheating occurs, the exam results will be canceled.

3. **Browser requirements:** Please use Google 58.0+ browsers during the exam. Other browsers (such as Edge, Firefox, etc.) will be incompatible.

4. **System requirements:** Windows 7+

5. **Network requirements:** The recommended network speed is faster than 256 KB/s.

7. **Screen switching:** The maximum screen switching number is 3. Any instant message, office, email, translate, screen capture, game, etc. software are not allowed to be opened, and please shut down all the unnecessary software, especially the software that may cause window pop-up.

8. **Test requirements:** Please take the **test exam** at least 1 day before the exam. If any problems, please feedback to examiner.

Test Exam link: https://ilearningx.huawei.com/portal/exam/101021/about

Note: During the forma exam, the screen is cut unexpectedly due to the Internet, browser or software, the exam will not be reopen for free.

9. Other matters:

1) The network quality will affect the system's judgment of screen switching. Please chose a computer with stable network status to take the exam.

2) If there is a problem with your computer, including network, hardware, etc. will count asscreen switching for one time, it is recommended to replace the computer immediately, and reopen, login to continue answering.

3) The time interval for the same candidate to retake the exam is at least 7 days.
